# Eric Inácio

Full-stack developer · Eric Eduardo Inácio da Silva

Bragança Paulista, SP · ericinaacio@gmail.com · +55 11 99540-2766 · ericinacio.com · linkedin.com/in/ericinacio · github.com/ericinacio

## Full-stack developer, *from front end to deploy*

Degree in Systems Analysis and Development and a postgraduate degree in Cybersecurity, with experience building and maintaining servers and automation tools in JavaScript, Lua and Python. The focus is on solutions to real problems, with security at every step, including vulnerability audits of web applications, APIs and the cloud. Since 2021, he has run his own server, with Docker deploys and hourly automatic backups. In day-to-day development, AI agents such as Claude Code and Flow support design, fixes, improvement suggestions and idea generation.

## EXPERIENCE

**Mechanical Technician · Ball Corporation** · Extrema, Brazil · Dec 2024 – present
Fixing faults in production equipment, with systematic root cause analysis.

**Forklift Operator · DHL Supply Chain** · Extrema, Brazil · Jan 2024 – Aug 2024
Moving and storing products, with every movement recorded in the system.

**Shipping Representative · Mercado Livre** · Extrema, Brazil · Apr 2023 – Oct 2023
Organizing and controlling warehouse materials, including inventory counts.

## EDUCATION

**Postgraduate degree in Cybersecurity** · Cruzeiro do Sul · Jul 2025 – Jun 2026
To deepen the security of the applications developed, from architecture to operation.

**Systems Analysis and Development** · Universidade São Francisco · 2023–2025
Technical foundation for working in systems development.

**Human Resources Management** · Cruzeiro do Sul · expected Jun 2027
To develop people management and leadership, with a future focus on leadership and senior management.

**Mechanical Technician** · Instituto Federal · 2020–2022
Foundation in maintenance and failure analysis, applied today at Ball Corporation.
